

Name: _____

Dividing With Equal Groups

Directions: Solve each equation. Then, draw a picture to represent each equation.

Example:

$$12 \div 3 = 4$$

$$8 \div 4 = \underline{\quad}$$

$$15 \div 3 = \underline{\quad}$$

$$18 \div 2 = \underline{\quad}$$

$$30 \div 6 = \underline{\quad}$$

$$3 \div 3 = \underline{\quad}$$

$$24 \div 8 = \underline{\quad}$$

$$36 \div 6 = \underline{\quad}$$

Name: _____

Dividing With Equal Groups

Directions: Solve each equation. Then, draw a picture to represent each equation.

Example:

$$12 \div 3 = 4$$

$$10 \div 2 = \underline{\quad}$$

$$42 \div 6 = \underline{\quad}$$

$$14 \div 2 = \underline{\quad}$$

$$35 \div 7 = \underline{\quad}$$

$$40 \div 5 = \underline{\quad}$$

$$27 \div 9 = \underline{\quad}$$

$$48 \div 8 = \underline{\quad}$$
