

Name: \_\_\_\_\_

# Multiplying With Arrays

Directions: Solve each equation. Then, draw an array to represent each equation.

*Example:*

$$4 \times 3 = 12$$

$$2 \times 5 = \underline{\quad}$$

$$8 \times 3 = \underline{\quad}$$

$$4 \times 6 = \underline{\quad}$$

$$2 \times 9 = \underline{\quad}$$

$$7 \times 5 = \underline{\quad}$$

$$9 \times 3 = \underline{\quad}$$

$$8 \times 4 = \underline{\quad}$$
